

## Assignment - 4

Assignment Date	28 October 2022
Student Name	Jesima Sulthana S
Team ID	PNT2022TMID33776
Maximum Marks	2 Marks

### Question 1:

Pull an image from docker hub and run it in docker playground.

```
2. The Docker daemon pulled the "hello-world" image from the Docker Hub.
   (amd64)
3. The Docker daemon created a new container from that image which runs the
   executable that produces the output you are currently reading.
4. The Docker daemon streamed that output to the Docker client, which sent it
   to your terminal.

To try something more ambitious, you can run an Ubuntu container with:
$ docker run -it ubuntu bash

Share images, automate workflows, and more with a free Docker ID:
https://hub.docker.com/

## Question 2:

Create a docker file for the jobportal application and deploy it in Docker desktop application.

DOCKERFILE:

```
1 FROM python:3.8-buster
2
3 WORKDIR /app
4
5 COPY requirements.txt /app/
6
7 RUN pip install -r requirements.txt
8
9 COPY . /app/
10
11 RUN cp .env.dev.sample .env
12
13 EXPOSE 8000
14
15 RUN chmod +x entrypoint.sh
16
17 CMD ["sh", "entrypoint.sh"]
```

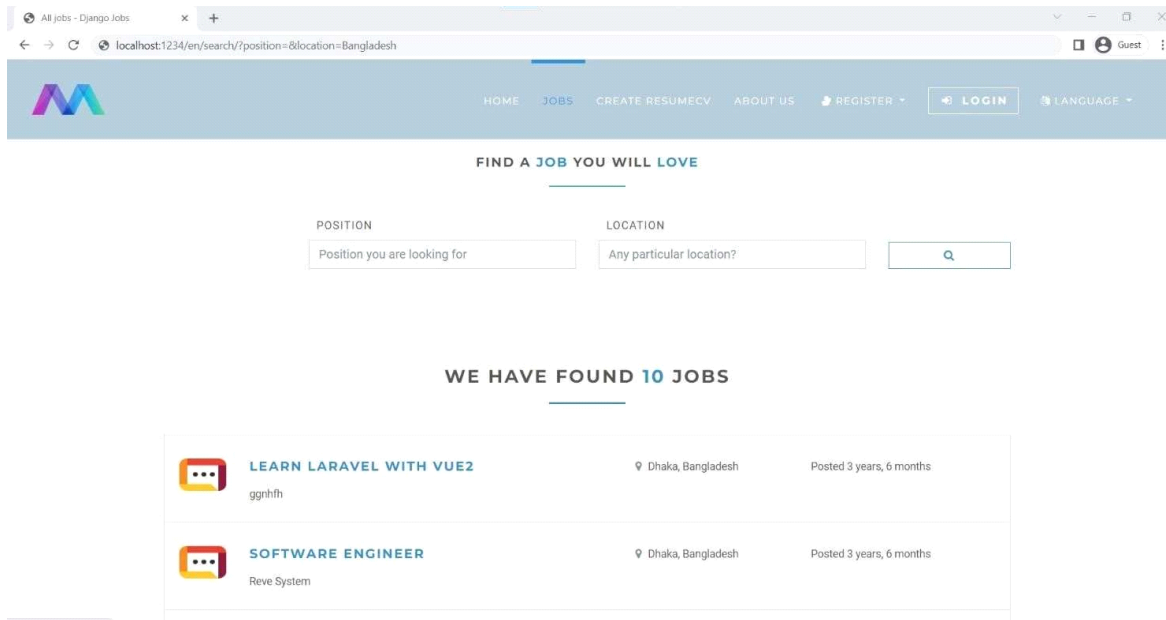

The screenshot shows the Docker Desktop interface. On the left is a sidebar with navigation options: Containers, Images, Volumes, Dev Environments (marked BETA), and Extensions (marked BETA). The main area is titled 'Containers' and includes a toggle for 'Only show running containers' and a search bar. Below this is a table of containers:

	NAME	IMAGE	STATUS	PORT(S)	STARTED	ACTIONS
<input type="checkbox"/>	agitated_neumann 918d20882039	icr.io/helloapp/ibm:latest	Exited (137)	49160:8080		
<input type="checkbox"/>	jolly_turing b62c0712bdd3	jobportalapplication:latest	Running	1234:8000	4 minutes ago	

At the bottom, it says 'Showing 2 items'. The status bar at the very bottom shows 'RAM 3.06GB', 'CPU 0.57%', 'Connected to Hub', and 'v4.13.0'.

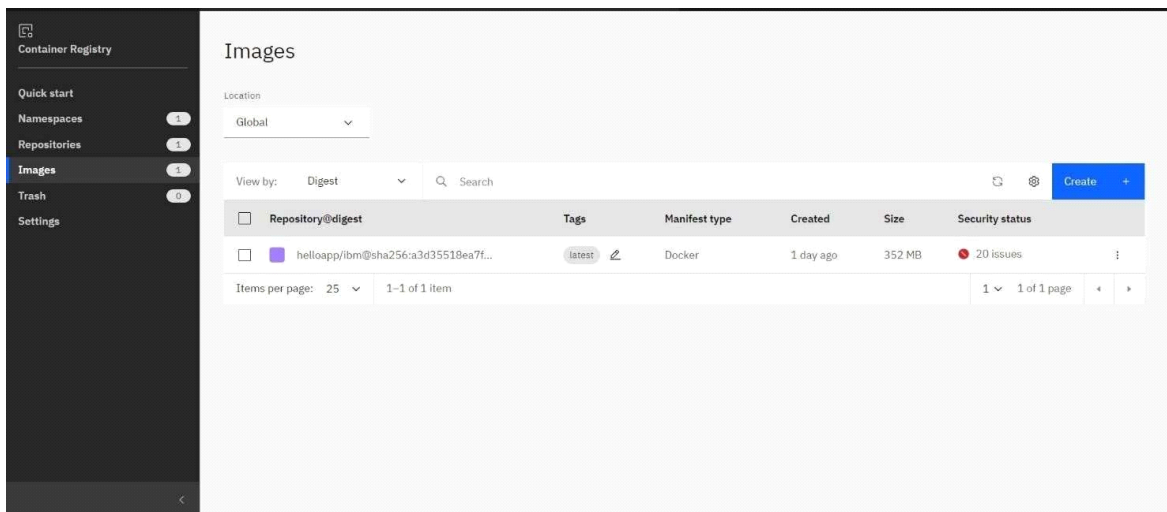

DEPLOYMENT OF JOBPORTAL APPLICATION:

OUTPUT:

### Question 3:

Create a IBM container registry and deploy helloworld app or jobportal app.

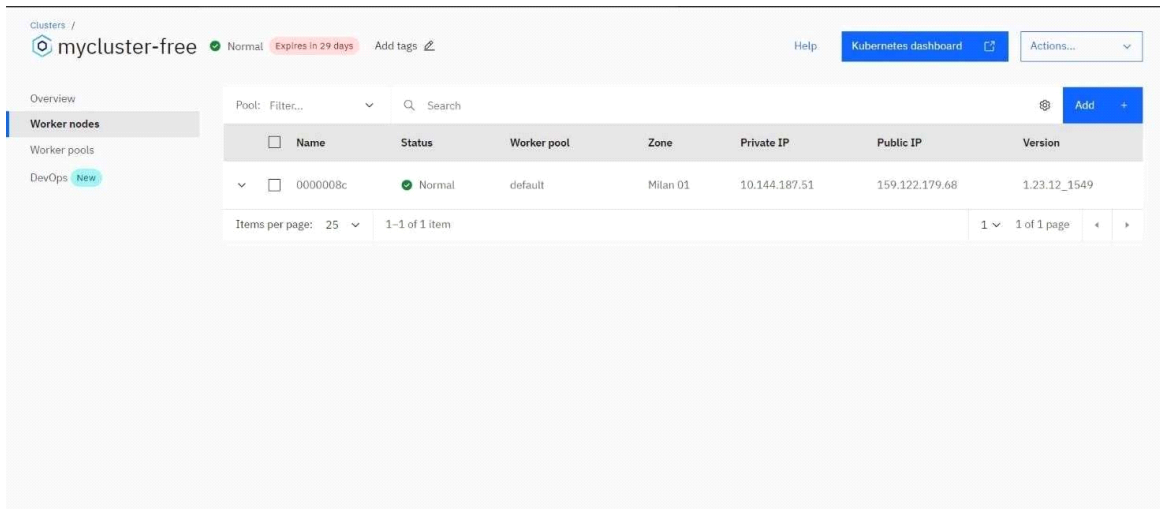

IBM

CONTAINER REGISTRY DEPLOYMENT:  
OUTPUT:

#### Question 4:

Create a Kubernetes cluster in IBM cloud and deploy helloworld image or jobportal image and also expose the same app to run in nodeport.

Creating kubernetes cluster in IBM cloud and exposing nodeport:  
Output:

## CHOOSE A TEMPLATE FOR YOUR RESUME/CV

The image displays three different resume templates side-by-side, each with a 'FREE' label and a 'BUILDER' button below it.

- Template 1 (Left):** A purple-themed resume for 'Your Full Name'. It includes a profile picture placeholder, contact information, a summary, and sections for 'WORK EXPERIENCE', 'EDUCATION', and 'ACTIVITIES'. A green 'FREE' label is at the bottom left, and a blue 'BUILDER' button is at the bottom right.
- Template 2 (Middle):** A white-themed resume for 'Your Full Name'. It features a clean layout with a summary, 'WORK EXPERIENCE', 'EDUCATION', and 'ACTIVITIES' sections. A green 'FREE' label is at the bottom left, and a blue 'BUILDER' button is at the bottom right.
- Template 3 (Right):** A white-themed resume for 'Your Name'. It includes a summary, 'WORK EXPERIENCE', 'EDUCATION', and 'ACTIVITIES' sections. A green 'FREE' label is at the bottom left, and a blue 'BUILDER' button is at the bottom right.
